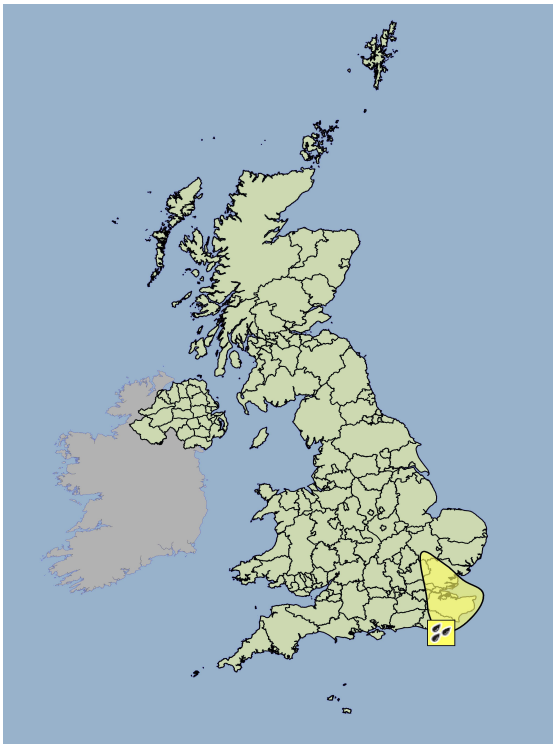
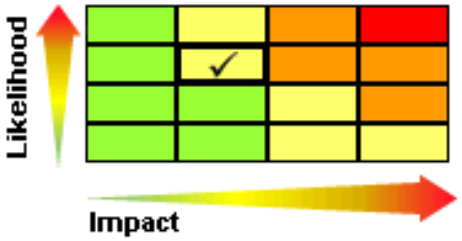
National Severe Weather Warning Service





Chief Forecasters Assessment
An active front will bring bursts of heavy rain across the area this morning with the risk of more than 10 mm in an hour and perhaps 30 mm in a few hours in places. Given that drainage may be impeded by leaves, this could lead to localised flooding e.g. to sections of road.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **06:00 on Wed, 28th Oct 2015** until **11:00 on Wed, 28th Oct 2015**

Rain across the region will turn heavy at times this morning, before clearing northwards. The public should be aware of the risk of localised surface water flooding.
